

Organically Grown

Organically Grown Company has experienced rapid growth over the past few years leading to challenges with foundational technology skills, and efficiencies within departments.

Of all the trainings we have offered at OGC, we are told that this round of trainings through the WICCO grant have been the most valuable. The training dollars OGC received through WICCO have been important in helping to build our infrastructure in 2009 in preparation for future Company growth. OGC management and employees are grateful to WICCO for this opportunity to build our staff skills and expertise. As we go into 2010, we will be working on defining career paths for our employees, from entry-level warehousing positions on up through the organization.
